The portal for property owners

WEALTH ARENA
PRIVATE WEALTH ADVISORS

Managing property has never been more convenient

Your wealth portal is packed with features designed to make life as a property owner just that little bit easier.

Track the value of your property over time

Add any properties you own to your wealth portal for online valuations and detailed reports to help you track your property and suburb's performance.

Store all your documents in the cloud

Organise your purchase documents, depreciation schedules, home insurance, and any other property related documents by storing them in your portal.

Use the portal's tax features to make tax time a breeze

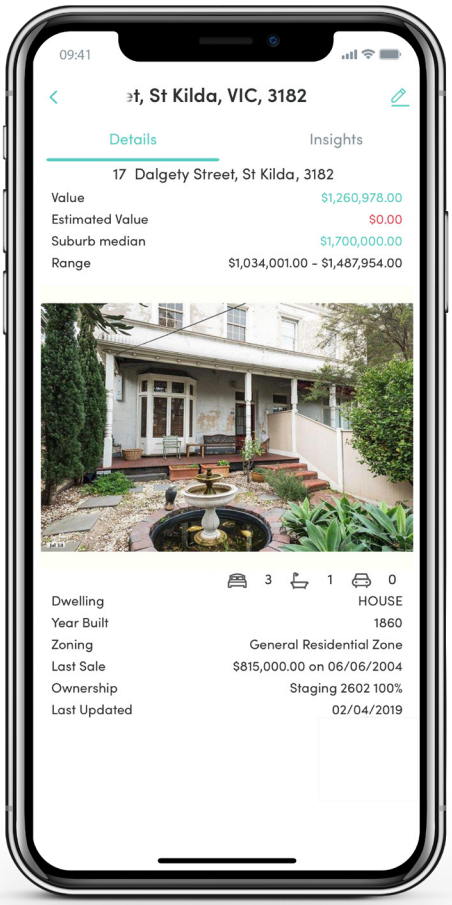
Tag and filter property-related transactions as tax items. Upload receipts and attach supporting documents.

Get rent statements sent straight to your portal

Don't let rent statements pile up. Add your property manager as a team member so they can email rent statements directly to your portal.

Plan your next renovation or property purchase

Create goals to find out what you can buy right now or how to reach your desired equity, and track your progress towards buying your next property.

Create tasks and reminders


Use the portal's To-do functionality to create tasks and set reminders for yourself and your team.
